

# BUILDING ON SUCCESS

BUSINESS IS BOOMING FOR **BRIGHTSTAR CREATIVE**, WHO HAVE JUST REBRANDED AND MOVED TO A LARGER OFFICE SPACE.

Sheffield graphic and web design company Brightstar Creative, have just celebrated their best ever year in their 22 years history.

To tie in with their recent success they have just launched a full company rebrand and are moving into larger office space on 4 July within the beautiful St. Marys Church on the edge of the city centre.

Creative director Darren Pass

commented: "We have seen strong growth over the last four years and the financial year that has just ended is our best to date. We are a company that genuinely cares about our customers and the quality of the work we produce, all our hard work seems to now be bringing in larger clients and more varied work. The website design side of the business has expanded particularly quickly over the last year and we are looking to develop that side more over the coming year.

"We needed to move into a larger space and have been very lucky that the largest office in St Mary's has been made available for us. We wanted to stay within St Mary's as it is a perfect location and having a large free car park makes life for our clients that much easier."
